Tips for reducing household waste

① Food Waste

- Thoroughly drain moisture from sink strainers and food waste nets
- Dry food waste using an electric food waste processor
- Compost food waste to turn it into fertilizer

→ -20%

→ -80%

→ -100%

For info on the subsidy program for electric food waste processors

For info on compost

② Garden waste

- Air-dry in the sun

→ -50%

(Simply leaving the garbage bag open allows it to dry.)

For more info

③ Food Loss

- Buy only the amount of food you will use and can eat

- Reduce food loss by using "Koriyama Tabesuke"

- Choose products with earlier use-by or best-before dates.

food-sharing service that lets you buy items at a discount from the regular price

Tips for reducing household waste

① Food Waste

Let's aim for 20% waste reduction in Koriyama

Let's each do what we can to help achieve a 20% waste reduction in Koriyama!

- Thoroughly drain moisture from sink strainers and food waste nets

➔ -20%

- Reduce food waste with a Kiero, a food waste processing container that uses black soil and can be easily made by anyone.

More info about Kiero >

② Reuse

Bulky waste can be reused.

If you want to reuse bulky waste, use services such as "Jimoty" or "Oikura."

More info about reusing

③ Recyclables

Collection Spot Map

- You can check nearby collection locations using the "Recyclables Collection Spot Map."

Please help make effective use of recyclable resources by using in-store collection points at supermarkets and other locations.

More info about the Spot Map >
